Education

2010–2015	PhD Candidate, Vrije University, the Netherlands
2001–2005	BSc (Honours) in biochemistry and microbiology, University of Queensland, Australia

Past Scientific Positions

2010–2015	Research Associate in the lab of Piero Carninci at RIKEN Yokohama, Japan
2008–2010	Research Assistant in the lab of Sean Grimmond at The University of Queensland, Australia
2006–2008	Research Assistant in the lab of Brian Dalrymple at the Commonwealth Scientific and Industrial Research Organisation, Australia
2005–2006	Research Assistant in the lab of Mark Ragan at the University of Queensland, Australia

Research Interests

- Genomics and transcriptomics; in particular the study of non-coding RNAs and transposable elements expression
- Open science and reproducible research
- The application of bioinformatics, in particular machine learning and data mining methods, to biological problems

Bioinformatic Skills

- Data analysis of high-throughput sequencing data from various *Seq protocols
- Knowledge and the ability to use various bioinformatic databases, repositories, and tools
- Biostatistics for the analysis of high-throughput sequencing data

Computer Skills

- Programming/scripting languages: Perl, R, SQL, bash, PHP, JavaScript, Python, and C
- Operating systems: Linux/Unix, OS X, and Windows
- Pre Web 2.0: CGI, PHP, HTML, MySQL, Apache2, and JavaScript
- Open science and reproducible research tools: git, GitHub, WordPress, Jekyll, and R Markdown/Markdown

Honours and Awards

2010	CSIRO Chairman's Medal
2008	CSIRO Partnership Excellence Award

Academic and Administrative Experience

2015	MODHEP Workshop presenter on analysing CAGE data using R
2013–2014	Organiser of the Chat with Guest sessions at RIKEN CLST DGT
2013–2014	Organiser of the Student Journal club at RIKEN CLST DGT
2013	Organising committee for the BrainTrain conference
2013	Organiser of the BrainTrain workshop: Identifying regulatory elements in the genome

Workshop and Course Attendances

2014	RIKEN/KI Doctoral Course: Employing Genome-wide Technologies for Functional Regulation in Development and Disease
2013	AMATA Conference ECR workshop
2013	Courseras Data Analysis from Johns Hopkins University
2013	BrainTrain courses and workshops
2013	RIKEN/KI Doctoral Course: Epigenomics: Methods and Applications to Disease and Development
2012	SISSA Summer School on Dopaminergic Neurons
2012	RIKEN/KI Doctoral Course: Functional regulation in development and disease
2011	UQ Winter School in Mathematical and Computational Biology
2011	RIKEN/EBI Bioinformatics Roadshow

Hobbies and Interests

Sports (especially basketball), cycling, blogging, self study, and computer games.
